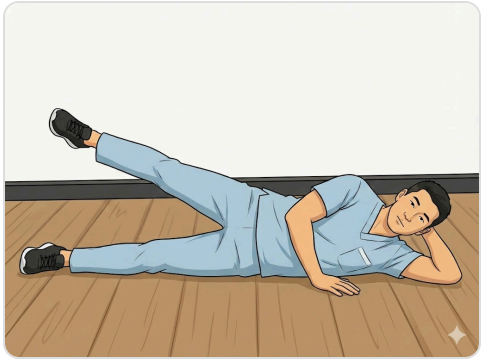
HOME EXERCISE PROGRAM

Personalized Recovery Plan

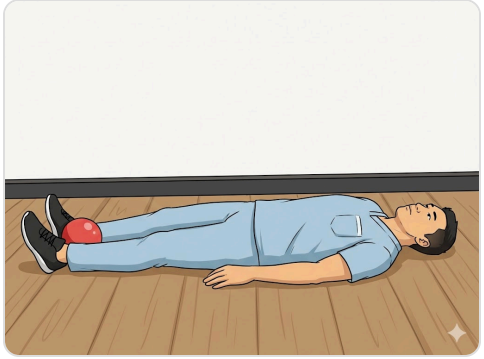
QUADS SETTING

Starting in a half seated position supported by your hands. Your injured knee should be straight. Gently squeeze your quadriceps muscle- imagine pulling your knee cap towards your chest. Hold this contraction for 3s. Repeat 10 reps x 3 sets.



SIDE LEG RAISE

Lie on your uninjured side, your injured side should be facing up. Straighten your knees and stack your ankles on top of each other. Slowly and gently lift your upper leg up until it's slightly above the level of your hip. Repeat this for 10 reps x 3 sets. If it is too easy progress with a band between your ankles or point your toe downwards.



SUPINE HIP ADDUCTION LEGS STRAIGHT

Place a ball or firm block between your ankles. Then squeeze your legs together against the ball and hold 10-15s in a pain-free manner. Repeat 10 reps x 3 sets.

Knee Protocol:
- Frequency: 1-2x Daily
- Sets/Reps: 3 sets of 10
- Keep pain below 3/10.
